Steering damper universal 70 mm stroke

SP-1-70m

Mounting Instructions

MOUNTING INSTRUCTIONS

⚠ **Warning!**

If you working on a Bike that is lifted/track stands vehicle, make sure that it is safely supported to prevent it from tipping over.

👁 **Note!**

When you work with this product, see the vehicle service manual for vehicle specific procedures and important data.

Install the bracket assembly (SP-1-BRKT) on the Spears steering damper. See the figure. Adjust the steering damper by letting it slide in its bracket assembly so that the steering damper uses the same stroke both ways.

👁 **Note!**

*Make sure that the steering has clearance for turning both to the left and to the right end positions, **and that the damper is not used as a stop.***

✋ **Caution!**

Make sure that all screws are tightened to the correct torque and that nothing restricts the movement of the steering damper.
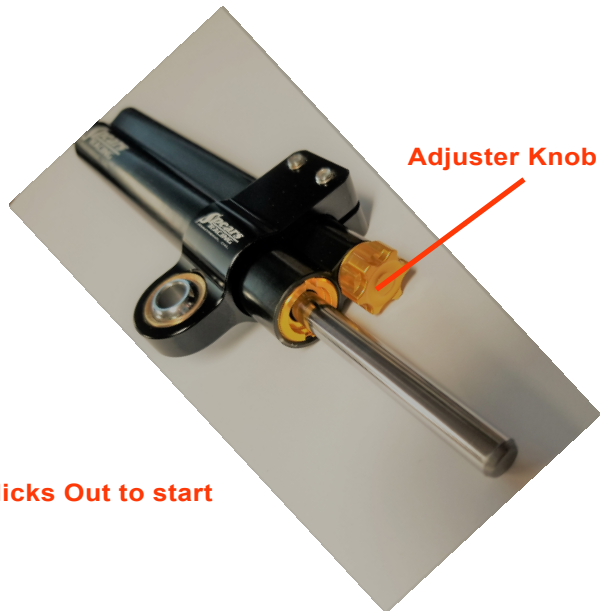

Torque to 5NM
