

Spears Racing Kawasaki EX300 Radiator Grille Guard (2013/2017)

Congratulation, you purchased the best Radiator Grille Guard for your Kawasaki Ex300

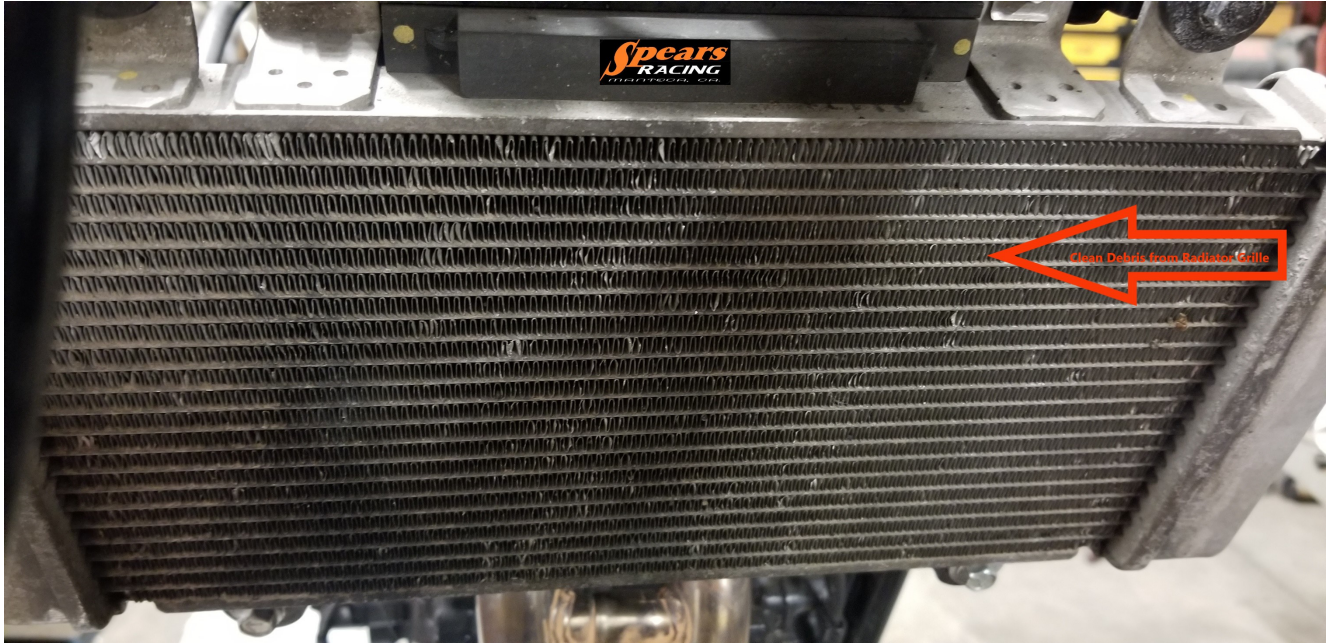

1. Read these instructions with photos before you start. Check if the kit includes all parts listed below
2. Inspect your current OEM radiator for any debris,such as bugs,leaves or any damage, if you find any debris we recommend that you to do a lite clean with a "Paint Brush" style brush.(pic.a)
3. Once the Radiator is clean,locate the Two mounting tabs (pic.b)
4. Remove the two (2) lower radiator securing bolts (pic.b)
5. Spears Racing Radiator Grille Guard (pic.d)
6. Turn the Spears Racing Radiator guard over, and install the provided rubber cushion strip (cut this in half) (pic.e,f,f1)
7. Install Spears Radiator guard .(pic.g,h.)
8. Once your Spears Racing Grille Guard is installed, double check for the proper clearance is checked between the front of your radiator (core) and the back of the grille guard.
9. Remember that if you have any questions on the installation please email us @ spearsracing1@gmail.com or call us at (209)923-4684
