

PS Eliminator | User's Guide

PAIR system eliminator module – FOR RACE USE ONLY!

1. Foreword

Congratulations on your purchase of a HealTech Electronics PAIR System Eliminator module (PSE). This unit will fit all motorcycles which have a PAIR (clean air) system.

The Plug 'n Go connector makes installation quick and easy, eliminating the need to alter the bike's original wiring..

Attention: If present, make sure to eliminate all O2 (lambda) sensor(s) on the bike prior using this product.

2. Installation

Please make sure to order the matching part number for your bike.

Disclaimer: Do not attempt to install the product if you don't have basic mechanical skills. HealTech Electronics Ltd. and its distributors shall not be liable for any loss or damage caused by improper installation.

1. Locate the stock PAIR (clean air) valve.
2. Unplug the connector.
3. Remove the PAIR (clean air) valve and air pipes and close holes (on airbox and head cover) or using a block-off plate(s) for head cover, if you need.
4. Plug the PSE module into the wiring harness connector.
5. Secure the PSE module with the supplied cable tie.

3. Warranty

The unit is completely sealed and epoxy encapsulated, which gives extreme protection for the internal parts from shocks, vibrations and water.

To ensure trouble-free operation from the start, all units have been extensively tested prior to shipment.

Our dealers are offering a 30-day money-back guarantee on HealTech products, thus you will get your money back if the product does not fulfill your expectations (all parts must be returned in original condition for full refund).

Furthermore the product is covered by our 2-year replacement warranty from the date of purchase.

4. Specifications

- Supply voltage: 8V to 24V
- Supply current: max. 40 mA @ 12V
- Plug 'n Go design

- Size: Ø14mm x 40mm (Ø0.55" x 1.58")
