

## HM M3 Dash

Quick Setup Guide

The HM M3 Dash has been designed to be very simple to use.

In a few short steps, you will be able to enjoy the features of your new purchase.

**Step 1:** Log on to <u>www.hmdash.com</u> to create your HM Cloud account.

**Step 2:** Register your new HM M3 Dash to your account via the options on the screen.

You will need to plug in your supplied USB key.

**Step 3:** Download and install the HM Launcher software.

**Step 4:** Right click on the small HM icon on your status bar, this will bring up a small menu.

Once you have done this, the information will be synced to you USB key.

## Step 5:

Plug the USB key back into your HM M3 Dash and this will automatically update your M3 dash with all your settings and trackmaps.

## Step 6:

Go set your fastest lap and enjoy.
